

VoiceChannel::getContent

VoiceChannel::getDateTime

VoiceChannel::getSentBy

Message::getContent

```
graph LR; VC1[VoiceChannel::getContent] --> M[Message::getContent]; VC2[VoiceChannel::getDateTime] --> M; VC3[VoiceChannel::getSentBy] --> M;
```

The diagram illustrates a mapping from three methods of the VoiceChannel class to a single method of the Message class. On the left, three white rectangular boxes are stacked vertically, each containing a method name: 'VoiceChannel::getContent', 'VoiceChannel::getDateTime', and 'VoiceChannel::getSentBy'. On the right, a single gray rectangular box contains the method name 'Message::getContent'. Three blue arrows originate from the right side of each VoiceChannel box and point towards the left side of the Message box, indicating that each of these methods is implemented by or delegates to the Message::getContent method.
